Trotzdem GESUND

Glücksspielsucht in
Familie und Freundeskreis

Gambling addiction is an issue for more than 30,000 families in Styria. Relatives face a dilemma, they don't want to leave the gambler alone but at the same time they are aware that the addiction is an existential threat to the family's finances, emotions and health. If they are just „keeping up“, their health is at risk

WE GIVE FAMILIES A VOICE!

Share your experiences and provide suggestions to help to show the serious effects of gambling on families in Styria. Contact us by telephone or e-mail to arrange a meeting. We will be happy to call you back.

SUPPORT GROUP FOR THE FAMILIES OF GAMBLERS

An effective three-month support programme is offering families of gamblers a valuable opportunity to discuss the issue and exchange experiences. Over 8 evening meetings experts on addiction treatment as well as legal advisors, psychologists and social workers will provide important information, advice and alternative strategies for dealing with gamblers and protecting family members. We will be pleased to support the establishment of self-help groups. Registrations are currently open!

Start: 11th of October 2016 at Frauenservice.

No fees, immediate registration! Men and women welcome.
